ACF Industries, Inc.—Private Placement—R. W. Pressprich & Co. announced on Nov. 7 that it has negotiated the direct private placement of \$4,710,000 of ACF 43/4% equipment trust certificates at a price of 100%. The issue is comprised of \$3,075,000 series A certificates maturing in equal annual instalments 1961 through 1975, and \$1,635,000 series B certificates due Nov. 1, 1980, and non-callable prior to Nov. 1, 1970.

Appointments -

United States Trust Co. of New York has been appointed trustee, paying agent, and registrar of the corporation's equipment trust of 1960.—V. 192, p. 1605.

Aeronca Manufacturing Corp.—Exchange Offer—

A plan to affiliate Aeronca Manufacturing Corp., of Middletown, Ohio, and Flight Refueling, Inc., of Baltimore, Md., has been approved by the directors of the two companies, it was announced on Nov. 3.

The joint announcement was made by John A. Lawler, President of Aeronca and Charles W. Newhall, Jr., President of Flight Refueling.

Aeronca and Charles W. Newhall, Jr., President of Flight Refueling.

The affiliation is proposed on the basis of 1% shares of Aeronca common stock to be exchanged for one share of Flight Refueling, and 15¼ shares of Aeronca common stock for each \$100 of face amount of Flight Refueling's outstanding 6% convertible debentures. An exchange offer will be made to the holders of Flight Refueling's common stock and debentures to become effective if accepted by the holders of at least 95% of Flight Refueling's common stock and 65% in principal amount of debentures. A registration statement covering the shares to be offered will be filed with the Securities and Exchange Commission and the offering will be made only by means of a prospectus conforming to the requirements of the Securities Act of 1933.

Aeronca produces large airframe structures, target missiles and ground support equipment. Its subsidiary, Buensod-Stacey Corp., engages in the manufacture of air conditioning equipment and the installation of commercial and industrial air conditioning systems.

Aeronca's Aerospace Division in Baltimore does research and development in the fields of space and electronics.

Flight Refueling, Inc., develops and produces equipment for the refueling of airplanes and helicopters in flight. Likewise, in recent years, the company has produced equipment for the fueling of missiles on the ground and ships at sea. Work is currently in progress on the development of specialized components for nuclear reactors, as well as on space studies and high altitude pilot feeding.

Aeronca has moved its Aerospace Division from Hilltop and Frederick Roads, Baltimore, Md., to larger quarters in Flight Refueling's facilities at Friendship International Airport in Baltimore, under a short term lease arrangement.—V. 191, p. 1873.

Allegheny Power System, Inc.—New Name-

Stockholders of The West Penn Electric Co. in a special meeting in New York on Nov. 9, voted to change the company's name to Allegheny Power System, Inc. The new New York Stock Exchange symbol for Allegheny Power common stock will be APW. It was used in trading beginning Nov. 11. The system operates electric utilities in five states: Maryland, Ohio, Pennsylvania, Virginia and West Virginia. Principal subsidiaries are Monongahela Power Co., The Potomac Edison Co. and West Penn Power Co.

Allied Maintenance Corp.—Appointment—

The Bankers Trust Co. has been appointed sole registrar for the capital stock of the corporation.—V. 192, p. 1705.

American Brake Shoe Co.—Division Moves-

American Brake Shoe has added a leading French automotive replacement parts supplier to its growing list of overseas acquisitions, Kempton Dunn, Brake Shoe's President, announced in New York on Nov. 9. The French company, Necto, S.A., was purchased recently through American Brake Shoe's wholly-owned Swiss subsidiary, Brakeshoe International, S.A., and will be a part of the Swiss firm's newly formed Brakeblok Division.

Necto is the second largest manufacturer of molded and woven brake linings and clutch facings for the replacement market in France 1959, its annual sales were the highest in the company's 30-year history. Netco's plant is located in Noyon, approximately 60 miles northeast of

According to Mr. Dunn, the decision to purchase Necto was the result more than a year's market analysis and evaluation of available ench firms. The factors in influencing the acquisitions were Netco's French firms.

excellent reputation, skilled work force, geographic location, and its fine sales and distribution system.

Immediate plans for Necto are to modernize its production facilities

by introducing techniques and euipment developed by Brake Shoe here in the United States. Netco's operations are expected to complement those of Fadil, S.A., another Brake Shoe French brake lining subsidiary.

Together, Necto and Fadil are expected to increase considerably Brake Shoe's share of the present \$10,000,000-a-year brake lining mar-

The company's Kellogg Division, one of the country's major producers of airborne hydraulic equipment, has completed a three-month, 3,000-mile move from Rochester, N. Y., to Oxnard, Calif. All of Kellogg's production facilities, research and engineering operations, sales, and administration are now centralized in a new, 100,000 square-foot plant bordering on the Ventura County Airport.

Major reasons for the move were to consolidate the Division's activities in a location near major aircraft and missile producers, and to locate in an area of highly skilled labor needed for the production of complex and critical hydraulic components.—V. 191, p. 2409.

American Electric Power Co., Inc.-Stock Dividend-

This New York holding company has applied to the SEC under the Holding Company Act for an order authorizing the company to declare a stock dividend at the rate of one share on each 40 shares of \$10 par value common stock outstanding, payable Jan. 10, 1961, to holders of record on Dec. 9, 1960. The Commission has issued an order giving interested persons until Nov. 28, 1960, to request a hearing on the

As of Sept. 30, 1960, the earned surplus of American was \$72,451,491. American has outstanding at this time 21,369,889 shares of common stock with a par value of \$10 per share or an aggregate of \$213,698,-890. If the maximum number of shares are issued, the stock dividend will involve the issuance of 534,247 shares and will bring the total number of shares to 21,904,136 with an aggregate par value of \$210,-041,360.—V. 192, p. 1298.

American Machine & Metals, Inc.—Sales Up, Net Down

Sales during the first nine months of 1960 increased over 1959 figures. Earnings decreased, "due to extraordinary development costs for four new products." C. W. Anderson, President, stated in the company's report for the third quarter ended Sept. 30.

Sales and net income figures, respectively, for the first nine months of 1960 compared with the first nine months of 1959, were: 1960—\$38,137,417 and \$1,639,736 or \$1.80 per share; 1959—\$37,902,314 and \$2,265,303 or \$2,51 per share.

Sales and net income figures, respectively, for the third quarter ended Sept. 30, were: 1960—\$12,207,039 and \$324,958 or 35 cents per share; 1959—\$12,806,996 and \$718,117 or 79 cents per share.

In the first nine months this year American Machine and Metals, Inc. has distributed \$1,091,191, or \$1.20 per share, as dividends. The dividend per share in each of the three quarters was 40 cents.

The report distributed to shareholders also noted the completion of a 20-year institutional loan of \$11,750,000 at 5%% interest for the purpose of reimbursing working capital for recent capital expenditures and to provide additional funds for that purpose.

The firm's plants in Pennsylvania, Ohio, Illinois and New Jersey make gauges, precision recording instruments, fractional horsepower motors, commercial laundry units, industrial filters, springs, fans, record-changers and other diverse control and testing devices.—V. 192,

American Steel Foundries—Forecast—News—

American Steel Foundries expects net income and sales in the quarter ending Dec. 31, 1960, to about equal results in the year ago quarter, Joseph B. Lanterman, President, told the Cleveland Society of Security Analysts on Nov. 10.

In the quarter ended Dec. 31, 1959, ASF earned \$1,542,462 equal to 53 cents a share when business was adversely influenced by the strike in the basic steel industry.

"While the outlook for our entire fixed year ending Sept. 30, 1961

"While the outlook for our entire fiscal year ending Sept. 30, 1961, is uncertain, there are indications at this time that earnings will be comparable to 1960 results," Mr. Lanterman said. In the fiscal year ended Sept. 30, 1960, ASF had net income of \$17,793,363 equal to \$2.66 on the average number of shares outstanding in the period, up from \$7,168,027 or \$2.65 a share in fiscal 1959. Earnings in fiscal 1960 were the third largest in the history of the company, exceeded only in 1956 and 1957.

Mr. Lanterman noted that the company's shipments to other than

railroad customers increased to 43% of total sales in fiscal 1960 compared with 41% in 1959 and only 10% in the early postwar years. "This major change results from expansion into other fields and not from de-emphasis of railway products," Mr. Lanterman noted.

ASF's sales of railway specialty items such as cast steel side frames and bolsters increased in fiscal 1960. This resulted as more new freight cars were produced in fiscal 1960 than a year ago, the ASF President said. Sales of the company's steel wheels for railroad cars, both in Canada and the United States, also increased in 1960. However, sales of railroad products used for repair decreased from 1959 levels

The outlook for 1961 for freight car components is uncertain, the ASF President said. However, he added that retirement of freight cars have exceeded cars purchased or built for the past several years, "and this lends optimism because of the need of the railroads to maintain an adequate freight car fleet."

In fiscal 1960, the sales volume of the company's pipe coating and wrapping business continued to grow and set new records, Mr. Lanterman said. He noted sales of South Bend Lathe products also increased, while sales of Diamond precision roller chains, sprockets and couplings declined slightly from a year ago.

In April 1960, production of Griffin cast iron pressure pipe was started at Council Bluffs, Iowa, marking the beginning of a new product line. "As a new manufacturer in the pipe field, the company has been pleased with its acceptance by many customers," the ASF President said.

has been pleased with its acceptance by many customers," the ASF President said.

"The efforts devoted to research were greater than any other year in ASF's history. The long term outlook is encouraging. Diversification both by acquisition and development will continue to be pursued vigorously. The program of capital additions should add to the company's earning power," Mr. Lanterman said.

"Our optimism in the future is evidenced by our capital spending plans, which at present, call for expenditures of \$10 million in 1961, about 20% more than the \$8,559,000 spent in 1960," he added. In 1961, major projects are a steel wheel plant at Bensenville in the Chicago area and a pipe coating and wrapping plant in North Lima, Ohio, in the Youngstown area. The pipe coating and wrapping plant is expected to be in operation in the spring of 1961 with the steel wheel plant to be completed in the fall.—V. 191, p. 2197.

Approved Finance Inc.—Capital Increase—

In a special meeting Nov. 4, shareholders of Approved Finance, Inc., approved an increase in capital by authorizing 1,025,000 shares, as compared with 1,000,000 previously. The 25,000 additional shares will be preferred stock with a par value of \$100 each.

George Hough, Approved Finance President, said the action will permit the firm to increase its capital base substantially and provide a higher growth rate. Approved's present base is about \$6 million.

Of the preferred shares, 12,500 will be issued initially and marketed on a private placement basis.

Creation of the shares necessitated amendment of Approved's articles of incorporation.—V. 190, p. 46.

Ashland Oil & Refining Co.—Annual Report—

The company on Nov. 9 announced sales and earnings for the fiscal year ended Sept. 30, 1960, which are the second highest in the company's history.

Net income of \$14,926,916 on sales of \$303,673,338, compared with 1959 income of \$14,349,025 on sales of \$300,644,158, according to a statement released by Rexford S. Blazer, Board Chairman, and Everett F. Wells. President.

F. Wells, President.

Earnings after dividends on preferred stock were equal to \$2.12 per share on 6,384,499 shares of common stock outstanding, which compares with \$2.09 per share for 1959 on 6,102,462 shares outstanding. Cash dividends paid to shareholders were a record \$7,628,283 and were supplemented by a 2% dividend paid in common stock in

August.
Indicated earnings for the September quarter were \$4,997,640, equivalent to 73 cents per share on common stock, as compared with \$3,816,893, equal to 56 cents per share for the corresponding quarte

Blazer and Wells said: "Larger than usual year-end adjustments of reserves accounted for a substantial part of the increase in earnings reported for the September quarter as compared with last year. Also, firmer prices for products, resulting from general industry reductions of the excessive rates of crude oil production and refinery runs, helped to improve the company's earnings in the final quarter of the year."

Capital investments during the year of \$26,044,086 were financed principally from earnings in excess of cash dividends and from non-cash charges of \$15,761,046 for depletion, depreciation and amortization. At the year-end, net working capital stood at \$51,920,193, and surplus was a record \$103,287,651.—V. 191, p. 1429.

Automobile Banking Corp.—Partial Redemption-

The corporation has called for redemption on Dec. 1, next, through operation of the sinking fund \$37,000 of its 5½% capital convertible debentures due Nov. 1, 1970 at 100¼%. Payment will be made at the Empire Trust Co., 20 Broad St., New York, N. Y.

The debentures are convertible into class A common stock to Nov. 30, 1960, inclusive.—V. 190, p. 2038.

Beckman Instruments, Inc.—Expansion-

Beckman Instruments, Inc., has purchased a 10-acre parcel of land adjacent to its 57-acre Pullerton, Calif., headquarters plant for future expansion purposes, it was announced by Robert Erickson, Executive Vice-President.

Mr. Erickson said the land was purchased for an undisclosed price from the Thomas Companies, Inc., and Heward D. Martin, Inc., both San Marino, Calif., firms.

He said there are no immediate plans for expansion on the property, now an orange grove.

The property is located on Pullerton Road immediately south of

the existing Beckman complex which includes corporate headquarters and three manufacturing divisions.-V. 192, p. 1607.

Beneficial Finance Co.—Registers Debentures-

Beneficial Finance Co.—Registers Debentures—
This company, located in the Beneficial Euilding, Wilmington, Del., filed a registration statement with the SEC on Nov. 4, 1960, covering \$50,000,000 of debentures, to be offered for public sale through a group of underwriters headed by Eastman Dillon, Union Securities & Co. The due date of the debentures, the interest rate, public offering price and underwriting terms are to be supplied by amendment. The corporation is a holding company whose subsidiaries are engaged principally in the small loan and the sales finance business and in activities related thereto. The net proceeds from the sale of debentures are to be placed in the company's general funds. It is intended that such funds will be used to reduce outstanding short term bank loans, the proceeds of which were used primarily to provide subsidiaries with funds to carry on their respective businesses.

In addition to various indebtedness and 5% preferred stock, the company has outstanding 10,001,218 shares of common stock, of which Beneficial Corp., of Delaware, owns 29.92%. O. W. Caspersen is listed as Board Chairman and President.—V. 192, p. 207.

Bigelow-Sanford, Inc.—Sales Up-News-

Net sales for the nine months ended Sept. 24, 1960, were \$53,606,000, compared with net sales of \$50,646,000 for the nine-month period of 1959. Consolidated net profit for the 1960 period was \$1,263,000 after charges for Federal income taxes. This is equivalent to \$1.14 per share on 1,022,410 shares of common stock outstanding. Net profit for the 1959 period after income tax charges was \$1,268,000, also equal to \$1.14 per share on the basis of the common shares presently outstanding.

Net sales for the third quarter of 1960 were \$15,994,000, compared with sales of \$16,096,000 for the same period of 1959. The 1960 third-quarter profit after income tax charges was \$244,000, equal to 21 cents per common share. Profit after income tax charges for the 1959 period was \$261,000, equal to 23 cents per share on the basis of the common stock presently outstanding.

Sales and net profits of Crestliner, Inc., are included for the six-

months period commencing April 1, 1960, the date of Bigelow-Sanford's acquisition of this wholly owned subsidiary.

Lowell P. Weicker, President, said that Bigelow-Sanford's carpet sales for the nine months, although not up to expectations, were ahead of last year's period and showed a favorable trend in relation to the industry. Outboard motor boat sales of Crestliner, Inc. have been good for its current fiscal year ended Oct. 31, 1960, and the sales trend is appreciably stronger than that shown by the total outboard motor boat industry. The nine-months sales of the Hartford Fibres Division were below those of a year ago, reflecting unsatisfactory marketing conditions in the rayon industry.—V. 191, p. 1563. Lowell P. Weicker, President, said that Bigelow-Sanford's carpet

Corporate and Municipal Financing Ahead

By SIDNEY BROWN

A heavy backlog of both corporate and municipal issues is in prospect for this week (Nov. 14-19) following on the heels of a placidly quiet Election Day financing week. The size of the municipal offerings set for sale, approximately \$203,450,000 in issues of \$1 million or more, has not been seen since the Chesapeake Bay Bridge and Tunnel issue. It is during this week that \$287,330,000 in short term notes will be offered by 112 Public Housing Administration authorities. This figure is not included in our capital financing study depicted below.

The second and fourth weeks of the four-week corporate float promise a respectably large dollar volume of senior debt offerings, but equity issues, on the other hand, only loom large in the third week exceeding bonds by about five to one.

The table immediately following recapitulates in dollar totals the four week backlog of corporate hand equity issues, and municipals, with tentatively assigned offering dates. The data are obtained from private and public sources and should provide a conservatively helpful indication as to the amount of financing ahead now being planned.

^{* \$1} million or more.

A comment on the reasons why common and preferred stocks are included and distinguished from senior debt in the Chronicle's compilation of backlog data may be desirable. What is involved here is no different than what motivates others, such as the SEC, when they tally the dollar volume of public offerings of securities undergoing registration. Our backlog data, incidentally, are confined to issues that offer firm prospects of appearing and of the dollar amount involved. Some of the SEC and ICC filings provide an offering price and, in the case of equities, some stocks only provide the offering amount by way of a last minute amendment. Nevertheless, there are proper techniques for estimating the offering prices which are not yet set and, also, the likely offering dates, in order to construct a fourweek flotation table and a total backlog figure for stocks and bonds.

The dollar volume data are compiled in order to provide an estimate of what the oncoming nature of and the total demand for long term capital looks like. Undere managers find such indications of particular help in scheduling and rescheduling their proposed offerings. Many times the table looms as important as any SEC backlog in the rearrangement of offering date thoughts. Bankers, individual and institutional investors, etc., add the float projections to other factors in order to gauge better the interest rate and the price/earnings trend. To merely look at the bond backlog alone, for example, would be almost the same as trying to predict the weather with but half the necessary instruments, or driving a car on two wheels.

Admittedly the problem of gauging offering dates is difficult. But so is predicting when it will rain or snow. Do unexpected or last minute changes, or lack of knowledge in certain areas, remove the reason for continuing to predict? Of course it does not. Weather experts do not like to make errors and their reaction, when it occurs, is not to stop but to improve their forecasting techniques. And this is similarly true in all analogous areas.

Pending registrations from July through Nov. 3 reached a high of 366 at the end of September and a low of 300 at the end of Aug. 11. There were 342 pending registrations as of Nov. 3. From now until the end of the year, it is doubtful that a substantial rise will occur in the bond and stock registrations. Much depends on the course of the business cycle and capital spending plans.

THE REACTION TO THE RESULTS OF NOVEMBER 8

The day following Senator Kennedy's close popular vote victory was marked by relatively little activity in the stock, bond and gold markets. Were it not for the fact that a small net gain was posted for stocks at the end of Nov. 9, one could conclude from the slight firmness in governments, municipals and some top corporates that the investment market was skeptical of the oncoming new administration's antidotes for our business slowdown. During the interregnum between now and

January it is conceivable that the market will wait out the period until it sees what can be expected. The narrowness of the vote was an unexpected surprise and indicates to some that Kennedy would have a difficult time getting many views of his advisors adopted.

CHANGES IN THE PAST

Additions to the Chronicle's corporate calendar of Nov. 10 totaled \$155,804,250 of which \$67,950,000 were in bonds.

Corporate public sales in the week ending Nov. 9 amounted to \$22,110,000 in senior debt, and \$5,789,370 in equities. Private placements consisted of \$79,210,000 in bonds and \$4,823,500 in stocks.

Additions to the Chronicle's municipal calendar of Nov. 10 came to a small \$23,435,000. Sales of tax-exempts of denominations of \$1 million and larger added up to \$49,419,000.

TOTAL BACKLOG

No State and municipal issues are scheduled as of this writing, beyond Dec. 13. Probable municipal offerings without assigned dates approximate \$450 millionabout the same as last week's figure. Voters who went to the polls last Tuesday approved a large amount of debt issues. The total figures on this should be out in a few days. The corporate backlog in bonds increased this week by about \$200 million and equities increased but slightly. Detail regarding each item in the Chronicle's backlog tables may be found in the Monday and Thursday issues.

cated an 86% content of hydrogen sulphide on preliminary analysis. It is estimated such gas would yield 34 long tons of sulphur per million cubic feet at an extraction cost of \$4 to \$5 a ton, E. H. LaBorde, President of Canadian Homestead, stated in his announcement.

The agreement provides that Texas Gulf will acquire the Panther River reservation subject to production royalties to the present owners in return for either deepening an existing well on the reservation or drilling a new exploratory well to 12,500 feet or to the Fairholme producing formation which the Shell discovery well tapped. The existing well was suspended in 1957 at 8,038 without having penetrated the producing zone.

Upon fulfillment of the Texas Gulf drilling commitment, Canadian Homestead and Union Oil will retain a gross royalty interest totaling 15% of all sulphur produced, with an increase to 25% following recovery of costs by Texas Gulf. In the case of discovery of petroleum or natural gas the two former companies will retain a gross overriding royalty totaling 12½%, increasing after recovery to a maximum of 30%. In addition, each will have the right to convert its royalty interest in petroleum and natural gas to a 25% working interest in each productive horizon, Mr. Laborde concluded.—V. 191, p. 2411.

Caspers Tin Plate Co.—Net Drops—

The Chicago company has reported earnings of \$68,812 after taxes for the nine months ended Sept. 30, compared with \$226,073 in the comparable period a year ago.

These latest earnings are equal to 19 cents a share, as against 62 cents a share, both based on 364,541 shares of common stock presently outstanding. Sales amounted to \$7,190,460 in the first nine months this year, compared with \$8,942,684 in the first three currents of 1959.

In the three months ended Sept. 30, the reduced volume of business resulted in a loss of \$6,401 or two cents a share. In the like period of 1959, earnings after taxes were \$65,165 or 18 cents a share. Sales of \$2,374,597 were 12.6% lower than the \$2,715,999 a year ago. In their report to shareholders, B. W. Bennett, Chairman, and Earl E. Gray, President, attributed the decline to operations of subsidiary companies engaged in s.eel warehousing and specialty can

"Steel demand has declined substantially as customers continue to

buy cautiously while they reduce inventories to minimum requirements," the report stated. "On the other hand, Caspers' lithographing business continues to maintain a level comparable to that of 1959." Caspers Tin Plate is active in the field of coating and lithographing for metal containers, closures, advertising displays, novelties and other uses. —V. 192, p. 495.

APPOINTMENTS — Transfer Agent: Citizens National Bank, 457 South Spring Street, Los Angeles, Calif.; Registrar: Union Bank, 760 South Hill Street, Los Angeles, Calif.

HISTORY—Chemplate was incorporated under the laws of the State of California on Nov. 25, 1953. It came into being by succeeding to the business of Chemplate Co., a general partnership. The general partnership was formed in June, 1953, and dissolved at the time when the company was organized.

PROCEEDS—The company proposes to expend \$10,000 for a Kanige license from the General American Transportation Corp. In addition to the license, the company is purchasing for \$100,000 certain piating equipment owned by the Kanigen Division of General American Transportation Corp. The company proposes to use \$20,000 from the proceeds for a down payment on the purchase price. The balance of the purchase price will be paid in equal monthly installments at 6% on the unpaid balance for three years. Approximately \$15,000 will be expended in moving the plating equipment from the Kanigen Division to the company's premises. The company further proposes to expend approximately \$20,000 for leasehold improvements and \$10,000 for hoisting equipment. The balance will be added to the general funds of the company for working capital.

according to Milton T. Vander Veer, Chairman of the Home Title Board of Directors.

The offer by the Chicago company is contingent upon its securing 85% of the outstanding shares of Home Title by Nov. 17, 1960. Directors of Home Title recommended acceptance of the offer in a letter sent to shareholders on Nov. 2.

Mr. Vander Veer stated that the present number of shares already committed by management and other holders of stock indicate that the required 85% is reasonably expected.

When the purchase is consummated, Home Title will continue to operate under its present name and there will be no change in management or services.

management or services. Home Title has its principal offices at 180 Fulton Street, New

York, and 51 Willoughby Street, Brooklyn. Its capital funds and reserves are in excess of \$4,500,000.

Chicago Title is one of the strongest and oldest title insurance com-

panies in the United States and traces its business history back to 1847. In announcing the plan of purchase, Mr. Vander Veer said, "We have great faith that the consummation of the sale of stock to Chicago Title will afford the maximum opportunity to Home Title to continue its progress in the scope and quality of service to its customers. In so doing, we will be able to develop our own capacities to their limit." -V. 186, p. 2850.

Citizens Utilities Co.—Record Net-

Mr. Rosenthal announced three additional acquisitions to the rapidly-growing group of Citizens' properties—two in Illinois and one in Arizona—bringing to seven the acquisitions consummated this year. The earlier acquisitions were one each in the States of Illinois, Indiana, Arizona and California.

Arizona and California.

The largest of the current acquisitions is Wethersfield Utilities, Inc., serving a large area adjacent to the Village of Schaumburg, immediately contiguous to Citizens' present sizable operation in the Village of Hoffman Estates. The ultimate development of the Wethersfield immediate service area will result in excess of 7000 water and sewerage customers, requiring a plant investment of \$8,000,000. Another acquisition is Country Club Highlands Water & Sewer Co., serving an area sourth of the Village of Bensenville, five miles west of Chicago's city limits.

These two acquisitions — whose plant investment at acquisition aggregated approximately \$800,000—bring to eleven the number of properties Citizens has acquired in the Chicago suburban area since beginning operations in Illinois in 1956. In the subsequent four and ane-half year period, Citizen's Illinois properties — including later acquisitions—have grown to the point that they now serve about 8,000 cusomers, and have aggregate plant investment exceeding \$6,-200.000

200.000 Rosenthal also announced the acquisition of the Southern Mr. Rosenthal also announced the acquisition of the Southern Utilities Co. of Patagonia, a gas utility certificated to serve the rapidly-developing Tubac, Santa Cruz County, Arizona area. The area includes the Tubac Valley Country Club of which Bing Crosby, an important area landowner, is Chairman.

Purchase prices of these latest acquisitions were not disclosed.

Either directly or through subsidiaries, Citizens provides electric, natural and manufactured gas, telephone and water service to more than 83,000 cusomers in over 300 communities in nine states: Arizona, California, Colorado, Idaho, Illinois, Indiana, Maine, Pennsylvania and Vermont.—V. 192, p. 398.

City Gas Co. of Florida-Acquires-

City Gas Co. of Florida purchased the total assets of Miami Bottled Gas Corp. for an amount in excess of \$2,000,000. Sidney W. Langer, President and Chief Executive Officer of City Gas, and S. F. Danels, Chairman of the Board, completed negotiations with Miami Bottled Gas Corp. officials and tendered their check of \$250,000, with final closing on or about Dec. 15, 1960. This is an all-cash transaction all-cash transaction.

Consolidated Aluminum Corp.—Expansion—

A 400% expansion program in production of sheet aluminum for the growing market is underway at this corporation.

William D. Miller, Executive Vice President, announced the new facilities will increase capacity in presently-produced grades of specification and commodity sheet, will add a cold bright finishing mill for specialty bright finish sheet and a tension roller leveling line for achieving highest standards of flat surface production.

Thomas W. Allison, Vice President, marketing-sales, said the new production will enable Consolidated to supply aluminum for a wider range of manufactured products in the fields of building materials, finer architectural applications, paneling, furniture, other consumer durables and transportation. Coiled sheet from the new facilities will be available in a wide range of special and anodizing qualities.

The major rolling mill equipment for the multi-million dollar expansion is being supplied by the Blaw-Knox Co. and major electrical equipment by General Electric Co. The new facilities are scheduled for completion by the first quarter of 1962.

The expansion represents a continuation of Convolidated's program.

The expansion represents a continuation of Consolidated's program of diversification of products and integration of manufacturing facilities. The company is a major producer of plain aluminum foil, and the largest domestic producer of super purity aluminum (99.99% pure). The super purity aluminum named Raffinal is used in capacitors, chemical processing, in catalysts for high octane gasoline and metal refining. When alloyed for strength, the super purity aluminum, known as Reflectal, has exceptional brilliance and corrosion resistance. It is used for automotive trim, searchlight reflectors, and fine hardware.

The manufacturing plants of the corporation are situated at Jackson, Tenn. Sales offices are maintained in New York, Chicago, Cleveland, Atlanta, Dallas and Los Angeles. The company became Consolidated Aluminum Corp. on Sept. 1, 1960. Prior to that it was known as Aluminum Foils, Inc.

Container Corp. of America—Merger—

A proposal to merge the Mengel Co. into Container Corp. of America was approved by the latter company's shareholders in a special meeting

The Mengel shareholders ratified same proposal at a special meeting

The Mengel shareholders ratified same proposal at a special meeting on Nov. 9, at its Louisville, Ky., headquarters.

Container Corp. shareholders veted a total of 8,099,701 shares in favor of the merger, with 14,581 shares voted against it. Shares voted in favor represented 76% of the company's outstanding stock, surpassing the necessary :wo-thirds majority.

Directors of the two companies had approved the merger in September and authorized an exchange of two shares of Container Corp. common stock for each share of Mengel common.

A majority of Mengel's outstanding common shares was acquired by Container Corp. in open market purchases during 1954; in 1956 the holdings were increased from approximately 65% to nearly 97%.

Crosby-Teletronics Corp.—FAA Order—

The Federal Aviation Agency has placed a \$40,000 order for additional facsimile equipment to operate its weather map service, Crosby-Teletronics reported on Nov. 11.

Teletronics reported on Nov. 11.

The facsimile equipment, originally researched and developed by Crosby-Teletronics for the Air Force communications modernization "Project Quick Pix," is being furnished to the FAA to overcome delays in weather map transmission caused by atmospheric conditions or overloaded circuits.

The equipment makes it possible for the maps to be received, then "stored" until either the circuits open or transmitting conditions improve. The graphic material can then be beamed throughout the FAA weather map network without the distortions caused by adverse transmitting conditions.

The facsimile system is made up of three pieces of equipment: A receiver-converter, which receives the data and converts into suitable form for storage on tape; a tape storage recorder-reproducer, which accepts the converted signal, stores it on magnetic recording tape, ready to be reproduced upon command; and a transmitter-converter, which re-converts the grapric material into a proper form for transmission.—V. 192, p. 304.

Dana Corp.—Annual Report—

Total sales for the fiscal year ended Aug. 31, 1960, of \$230,200,000 were the highest in Dana history, an increase of 5% over 1959.

This increase was due to increased production by automotive and truck customers, also to new Dana product designs adopted by the industry resulting in greater penetration of this market. The continuing popularity of the Powr-Lok Limited Slip Differential resulted in a continuing increase in the sale of this product.

Working capital of \$57,500,000 at year-end was also the highest in our history. Cash and marketable securities approximated total current liabilities.

Earnings of \$16,455,000, or \$3.25 per share, were the third best in the Toledo, Ohio, firm's history. This compares with \$18,236,000, or \$3.61 per share in 1959, a decline of approximately 10%.—V. 190,

General Controls Co.—Net Down-

General Controls Co. for the nine months ended Sept. 30, 1960 increase its sales over the comparable period last year, President William A. Ray announced on Nov. 2 in an interim report to shareholders.

He stated that healthy sales gains were attained by the company's industrial controls, aircraft controls and electronics product areas. A less than expected level of sales, however, was achieved in heating, air-conditioning and appliance controls which affected earnings. For the first three quarters of 1960, net sales amounted to \$29,976,-186 compared with sales of \$28,882,050 for the like period last year.

Net profits totalled \$809,454 equal after preferred dividends to 71 cents per share on the 957,308 common shares outstanding at Sept. 30, 1960. For the first nine months of 1959, net profit was \$1,137,454 equal to \$1.05 a share after preferred dividends on the 955,580 common shares then outstanding after adjusting for the 10% stock dividend paid March 31, 1960.

The report stated that during the period under review residential housing starts and general construction upon which heating, air-conditioning and appliance controls depend, generally declined. Also, there was increased competition in this segment of the company's product

Mr. Ray said that while business this summer was lower than usual, some improvement has occurred in the last two months reflecting a turnabout and the company's prospects for the near-term future appear to be more promising. Within the next year, the growth pattern of General Controls should once again resume the vigorous expansion which has characterized the company in the past.

To minimize General Controls' dependence on product lines that can be cyclical in nature and broaden its total markets, heavy emphasis has been placed on the development of certain less-cyclical industrial and aircraft-electronic product lines. These lines now represent almost half of the company's total sales, up from less than 40% of total sales just a year ago, Mr. Ray said.

Expenses and operating overhead have been kept close to or under budget and further operational changes in preparation for the future upswing in depressed portions of the business are being undertaken, the report concluded.—V. 192, p. 597.

General Precision Equipment Corp. (& Subs.)—Sales, Net Up-

The corporation and its subsidiaries reported net income for the nine months ended Sept. 30 was \$3,622,512, or \$2.28 per share of common stock, an increase of 19% over the \$3,043,628, or \$1.91 per share of common stock reported for the equivalent period in 1959. This was achieved on sales of \$176,554,550, compared with \$156,420,-305 for the comparable period in 1959, an increase of 12.8%, J. W. Murray, Chairman of the Board, appropriate the period in 1959. Murray, Chairman of the Board, announced.

Net earnings for the three months ended Sept. 30, 1960, were \$1.155,376, or 71 cents per share of common stock, compared with \$980,507, or 57 cents per share of common stock for the third quarter of 1959. Sales for the quarter were \$55,831,746. Sales for the equivalent period in 1959 were \$54,118,866.

lent period in 1959 were \$54,118,866.

Sales and earnings for the balance of the year are expected to show continued improvement over 1959, Mr. Murray said. In addition to regular quarterly dividends on outstanding preferred and preference stocks, the directors voted a quarterly dividend of 25 cents per common share, payable Dec. 15, 1960.

The four divisions comprising General Precision, Inc., the principal subsidiary of General Precision Equipment Corp., reported new product or market developments during the third quarter.

GPL Division is participating in the revitalized and expanded B-70 supersonic bomber program. Now under development is a highly accurate and advanced doppler radar system to be used as part of the B-70 bombing and navigation system.

GPL entered the medical electronics field with the announcement of a new Electronic Pupillograph, a device for recording movement

within the nervous system.

Kearfott Division has started work on a recently received contract for supplying hydraulic control systems for the U.S. Army Pershing missile—a selective range, surface-to-surface, ballistic missile system. A new digital computer, the Libratrol-1000, was introduced by Librascope Division. The computer is designed to fulfill the requirements of modern process control applications and is expected

to be particularly valuable in the steel, chemical, petroleum and atomic energy industries.

Link Division has designed and developed a simple, economical method for performing the vital function of visual display of data gathered by electronic computers. Dubbed "DOTitron," this new character generation and display system operates in conjunction with computer-read-out equipment. DOTitron generates and displays alphanumeric characters or any other arbitrary pattern of lines on a cathode ray tube or other projection tube equipment. This display is in the form of closely-adjacent luminous dots. Canadian Restricted List

Fifteenth Supplement

The Securities and Exchange Commission has announced the addition of Trans-Oceanic Hotels Corp. Ltd., and Tyndall Explorations Ltd. to its Canadian Restricted List.

The list is comprised of the names of Canadian companies whose securities recently have been or currently are being distributed in the United States in violation of the registration requirements of the Securities Act of 1933, thus depriving investors of the financial and other information essential to an informed and realistic evaluation of the worth of the securities which registration would provide.

The June 27, 1960, revision of the Canadian Restricted List contained the names of 209 Canadian companies. Since that date, 24 companies have been added to the list (including those named above) and three have been dropped from the list for a net total of 231. Deletions from the list may be made for various reasons, including the discontinuance of the unlawful distribution and an undertaking to comply with the law in respect of any future distribution in the United States.

A cumulative listing of additions and deletions since the June 27 revision is set forth below:

Hertz Corp.—Record Highs—

Revenues and earnings which set all-time highs for any third quarter and nine-month periods in its history were reported on Nov. 10

by the corporation.

Total revenue increased 16.1% to \$94,210,034 in the first nine months of 1960 from \$81,138,526 in the comparable 1959 period.

Walter L. Jacobs, Hertz Fresident, said more than 80% of the \$13 million increase in revenues over the first nine months of 1959 was achieved through internal expansion.

"Despite some rising costs, notably interest, the corporation's profit ratio kept pace with the volume increase," he stated.

Net income before provision for Federal income taxes was \$10,207,645 for the nine months ending Sept. 30, 1960, compared with \$8,591,190 in the same period in 1959, an increase of 18.8%. Net income after taxes in 1960 is \$5,311,745, compared with \$4,510,190 in 1959, an increase of 17.8%.

increase of 17.8%. Income per share rose to \$1.55 on 3,424,605 shares outstanding on Sept. 30, 1960 from \$1.37 on 3,283,882 shares outstanding on Sept.

The 1959 results have been restated to reflect the higher Federal income tax cost applicable to that year arising from United States Supreme Court tax depreciation decisions on June 27, 1960.

The report points out that exercise of an option on Aug. 4 by American Express Co. to purchase 118,125 additional shares of Hertz stock increased the number of shares outstanding in the third quarter. The option was granted in November, 1957, in connection with the formation of Hertz American Express International, Ltd.—V. 192, p. 1815.

An amicable settlement of litigation pending in New York and Puerto Rico for over two years between Houdry Process Corp. and Commonwealth Cil Refining Co., Inc., was announced today by Sam H. Casey, president of Commonwealth, and T. A. Burtis, president of Houdry.-V. 182, p. 2019.

Howe Sound Co.—Sales Up, Net Down-

Howe Sound Co. (N. Y. S. E.) announced on Nov. 9 record sales for the first nine months of 1960. Sales reached \$72,867,605, with a net before taxes of \$6,229,060. The company earned \$3,835,108 after taxes.

According to William M. Weaver, Jr., President, Howe Sound operations in the aluminum, superalloy products, metals and refractories fields showed record sales and earnings for the nine-month period. The overall result was offset by the decline of sales in the copper mill division. Mr. Weaver stated, however, that the decrease in sales was temporary and sales had already started to improve. He said the company will continue to expand operations in its highly successful aluminum and superalloy products divisions.

aluminum and superalloy products divisions.

Howe sales in the third quarter were \$22,368,760 against \$21,845,433 in the third quarter of 1959, with share earnings of 29 cents as compared with 45 cents in the 1959 period.—V. 192, p. 1398.

Hupp Corp.—Acquires—

Hupp has enlarged its stake in infrared radiant heating by acquiring assets of Horace L. Smith Jr., Inc., Richmond, Va., thermodynamics engineers specializing in radiant heating and drying, John C. Ekblom, Hupp chairman, has announced. The Smith organization perfected the Smitherm process for drying pulp and paper, finishing and color dyeing synthetic textiles and commercial processing of food products.

The transaction involves exchange of all common and preferred shares of Horace L. Smith Jr., Inc., for Hupp common shares and royalty payments on Smith patents over a period of years, Mr. Ekblom said. The new acquisition will be operated as a subsidiary under the name Smitherm Corp. Present management—Horace L. Smith Jr., president; John W. Abbott, vice president, and Paul B. Goforth, secretary and treasurer—will continue as officers of the new subsidiary, according to Mr. Ekblom.

Magic Mountain, Inc.—Reorganization—

Magic Mountain, Inc.—Reorganization—
The SEC on Nov. 9, 1960, urged that the petition of Magic Mountain, Inc., for reorganization under Chapter X of the Bankruptcy Act should be approved by the United States District Court in Denver. The Commission's statement was made in objections which it filed to the report of referee Benjamin C. Hilliard, Jr., who had recommended that the petition for reorganization be dismissed. In seeking the approval of the petition of Magic Mountain, Inc., the Commission called the attention of the court to the fact that the interests of 12,000 stockholders are at stake. The Commission stated that "nothing is more demonstrative of the need for reorganization" than the possibility that these stockholders might be wiped out by the many pending foreclosure actions. The Commission also stated that the report of the referee was "clearly erroneous" in many other respects. It of the referee was "clearly erroneous" in many other respects. It urged that a disinterested trustee be appointed to determine whether the corporation can be reorganized and to investigate the conduct of the debtor's management of corporate affairs.—V. 192, p. 1711.

Pendleton Teol Industries, Inc. (& Subs.)—Net Down
Consolidated net sales of Pendleton Tool Industries, Inc. for the
nine months ended Sept. 30, 1960 were higher than for the like period
last year. Sales of \$16,348,867 compared with \$14,967,258 at the three
quarter mark of 1959, Morris B. Pendleton, President, has announced.
The contribution to consolidated sales from Vlchek Tool Co., acquired
Jan. 4, 1960, more than accounted for the increase.

Consolidated net income was \$590,664, equal to \$1.09 a share, compared with 1959 nine months' earnings of \$838,570 or \$1.55 a share,
both based on the 542,283 common shares outstanding at Sept. 30,
1960. Shares outstanding were increased by 53,128 during the 12 month
period, primarily through the sale of 50,000 shares to the public in
May, 1960 in connection with the acquisition of Vlchek.

For the third quarter, the three months ended Sept. 30, 1960, sales
were \$5,380,808 and earnings were \$151,496, or 28 cents a share. The
ilke period last year produced sales of \$5,008,430 and earnings of
\$254,065, or 47 cents a share.

"The 1960 earnings of the corporation to date were adversely
affected by Vlchek's earlier losses and the slowdown in the economy."

Penn-Dixie Cement Corp.—Tax Settlement—News—

Penn-Dixie Cement Corp.—Tax Settlement—News—Directors on Nov. 10 declared a quarterly dividend of 35 cents a share on the company's capital stock. It is payable on Dec. 15, 1960 to shareowners of record Nov. 30, 1960.

This declaration will bring total 1960 dividends to \$1.40 a share, compared with \$1.55 in 1959, including a 20-cent year-end extra.

Penn-Dixie's board of directors has elected to settle its Federal income tax deficiencies for the years 1951 through 1959 which have been in controversy, B. W. Druckenmiller, President of the company, reported. Deficiencies were claimed by the government on the basis of a strict interpretation of the depletion allowance which is available to cement manufacturers, Mr. Druckenmiller said.

He reported that, as a result of recently enacted legislation and the decision of the Supreme Court in the Cannelton Sewer Pipe Case, Penn-Dixie was faced with the necessity either of settling the controversy on the basis of depletion at the kiln-feed stage of the manufacturing process, or engaging in protracted litigation in which the outlook for success appeared to be extremely uncertain.

He added that if, in the litigation, the government was successful in maintaining its extreme position, Penn-Dixie's liability would be far greater than the approximately \$7,600,000 including interest which is involved in the settlement. He also noted that Penn-Dixie, with working capital of \$20,303,000 including cash and government securities on hand of \$17,758,000 would be able to absorb the liability without the necessity of recourse to long-term borrowings.—V. 192, p. 1712.

Penn Fruit Co., Inc.—Acquires—

Samuel Cooke, chairman of Penn Fruit on Nov. 1 announced the purchase of Schreiber Bros., Inc., Baltimore supermarket chain, for an undisclosed amount of cash.

undisclosed amount of cash.

Schreiber's volume has been in excess of \$11,000,000 annually. Organized in 1924, the company operates six supermarkets in the following locations: two of the Schreiber stores are in the downtown area of Baltimore, on Eutaw and Paca Streets; three are in shopping centers: Liberty Heights, Charing Cross, and Glen Burnie; and one is on the Pulaski Highway in a suburban area east of the city.

Penn Fruit has operated six supermarkets in Baltimore and has 12 in the area pursuant to the take-over on Nov. 5.

The purchase of this chain, first since Penn Fruit was organized in 1927, marks the beginning of an acquisition program by the company, Mr. Cooke said.—V. 192, p. 1858.

BUSINESS—The company manufactures and sells custom-engineered and standard fireproof hollow metal doors and frames for use in schools, hospitals, defense installations, office buildings and other institutional, commercial and industrial structures. In addition, it manufactures and sells a number of related products, including marine joiner doors and frames, convector covers and venetian blind pockets. The company also manufactures mail chutes and receiving boxes and has recently made its first multi-story installation.

PROCEEDS—The estimated proceeds to be realized by the company from the sale of the securities will be approximately \$242,000 after payment of the underwriter's commission and expenses and of the company's own expenses of the offering estimated to be \$8,000. It is anticipated that such proceeds will be applied as follows:

(a) Approximately \$60,000 to complete the deposit of security under the lease for the company's new plant at Carlstadt, N. J.;

(b) Approximately \$20,000 for the expenses of moving to the new plant:

(c) Approximately \$162,000 for the purchase of additional machinery

weyor system and additional power brakes, shear, punch presses, fork lifts and an automatic paint line. No representation is made that this sum will be adequate to purchase all equipment planned for the new premises, and the company intends to purchase a substantial amount of machinery on an installment basis or other credit or rental basis.

Techno Fund. Inc.—New Investment—

Techno Fund, Inc., Columbus, O., a small business investment company specializing in financial and management aids to technologically based firms, has committed an investment of \$1,000,000 in a new company, called Gemex Precision Metals, Inc

The new company has purchased the assets of the Gemex Corp. from the Vanderbilt Tire & Rubber Co. Gemex is a nationally known manufacturer of watchbands, electronic parts, and automotive accessories, with principal plant and offices in Union, N. J.

According to Dr. Clyde Williams, president of the Clyde Williams Investment, Management Co., Columbus, which negotiated arrangements for Techno Fund, and Harold N. Leitman, president of Vanderbilt Tires, the sale of assets from the Gemex Corp. to Gemex Precision Metals, Inc., involved approximately \$2.1 million.

Terms of the agreement call for Techno Fund to invest \$700,000 in debentures with warrants of Gemex Precision Metals, Inc., and an additional \$300,000 in common stock. Key employees will invest \$102,000 in the common stock and will be given options to purchase a like amount over a five-year period.

Techno Fund was organized earlier this year to provide financial aid and management assistance to small companies having a strong science base. It has over \$5 million in assets, which it is investing in companies in such fields of manufacturing as electronics, chemicals, new metals, precision mechanical products, and technical instruments.-V. 192,

Terry Shops, Inc.—Common Stock Offered—Pursuant to a Nov. 7 offering circular, Whitmore, Bruce & Co., 29 Broadway, New York 6, N. Y., publicly offered 60,000 shares of this firm's 50¢ par common stock at \$5 per share.

BUSINESS—Terry Shops, Inc. was incorporated in New Jersey on Oct. 22, 1947 by Messrs. Harry, Stanley and Seymour Slavin, its present management and stockholders, as S. & S. Stores, Inc., and adopted its present name on Sept. 21, 1960. The company operates a chain of retail stores for the sale of wearing apparel in the moderate-price range for women, misses and, in many stores, children. Merchandise sold includes coats, suits, dresses, gowns, toppers, blouses, sweaters, skirts, slacks, sportswear, hosiery, lingerie and undergarments. Terry Shops, Inc. has two wholly-owned subsidiaries, Ronnie Realty Co., Inc. and B.B.C. Advertising Agency, Inc.

Texas Gas Transmission Corp. (& Subs.)—Net Up-Consolidated net income amounted to \$2,216,000 for the third quarter Consolidated net income amounted to \$2,216,000 for the third quarter of 1960, up 22% from the \$1,810,000 for the like period of 1959, according to W. M. Elmer, President. After perferred dividends, this amounted to 62 cents per share on the 2,954,582 shares outstanding at Sept. 30, 1960, an increase of 15% compared with per share earnings of 54 cents on the 2,950,083 shares outstanding at the end of the third quarter of 1959

The figures reported above reflect a settlement of the company's

The figures reported above reflect a settlement of the company's only outstanding rate case on Oct. 14, which resulted in an increase in annual revenues of approximately \$5,411,000. Higher gas costs and increased operating expenses made it necessary for the company to file a new rate application on Oct. 21, requesting an increase in jurisdictional revenues amounting to \$4,742,000. While the company has requested an effective date of Dec. 6, 1960 for the proposed increase, it has been the practice of the FPC to suspend such increases for a period of five months after which they may be collected subject to refund of any amounts not ultimately approved by the Commission.

In order to meet the growing needs of the company's service area,

In order to meet the growing needs of the company's service area, Texas Gas filed, on Oct. 24, 1960, an application for authority to construct approximately \$16.8 million of new facilities. The application is based on anticipated requirements of the company's present customers for the winter of 1961-62, and will make an additional 50 million cubic feet of gas available daily to 41 customer companies in seven states.

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show a decrease compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Nov. 12, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 11.8% below those of the corresponding week last year. Our preliminary totals stand at \$19,763,506,097 against \$22,397,702,248 for the same week in 1959. At this center there is a loss for the week ending Friday of 15.4%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended Nov. 5. For that week there was an increase of 17.7%, the aggregate clearings for the whole country having amounted to \$30,363,580,176 against \$25,789,749,429 in the same week in 1959. Outside of this city there was a gain of 5.0%, the bank clearings at this center showing an increase of 29.8%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals show an expansion of 29.4%, in the Boston Reserve District of 6.7% and in the Philadelphia Reserve District of 15.7%. In the Cleveland Reserve District the totals record an improvement of 7.6%, in the Richmond Reserve District of 3.0% and in the Atlanta Reserve District of 3.8%. The Chicago Reserve District registers a gain of 2.0%, the St. Louis Reserve District of 3.9% and the Minneapolis Reserve District of 8.1%. In the Kansas City Reserve District the totals are larger by 2.4% but in the Dallas Reserve District the totals are smaller by 3.0% and in the San Francisco Reserve District by 0.1%.

In the following we furnish a summary by Federal Reserve Districts:

pletion of a new discovery well in Jackson Parish, La., which is considered highly significant to the company's operations. The well is a rich gas condensate producer at a depth of 9,850 feet, and the company owns a one-half interest in 4,000 acres of leases in the area.

Construction doubling the size of the company's Eunice extraction plant for natural gas liquids is ahead of schedule and should be completed around the end of the year. Texas Gas is now extracting liquids under firm contracts with producers, and the new plant capacity is expected to play a significant role in the earnings picture for Exploration in the coming year.—V. 192, p. 747.

Texas Gulf Sulphur Co.—New Plant—

The company will begin construction immediately on a new \$25 million potash mining and processing plant in southeastern Utah, Claude O. Stephens, President, has announced.

Mr. Stephens made the announcement following a special meeting of the company's board of directors. At the meeting, directors authorized the exercise of an option to acquire extensive potash reserves at Cane Creek, Utah, near the town of Moab. The option was granted to Texas Gulf by Delhi-Taylor Oil Corp. last April.

The company previously disclosed that a core drilling program in the Cane Creek area had confirmed a very large potash deposit "believed to be richer than any known to exist in the United States."

Mr. Stephens said the new plant is designed to produce annually up to "well over a million tons of muriate of potash," the form in which the bulk of all potash is sold. This will make Texas Gulf the largest potash producer in the country. If construction schedules are maintained, the company expects to have potash in the market by about the end of 1962. "Diversification into potash is a natural development for Texas Gulf Sulphur because of our experience as an extractive company," Mr. Stephens stated. "Also, many of our present sulphur customers are in the fertilizer industry, which is the prime market for potash."

In addition to its richness in content, the Cane Creek ore has proved under analysis to have "plus qualities in physical characteristics making it economical to process," the TGS executive said.

Evidence of underground characteristics includes data supplied from 25 wells drilled at Cane Creek, of which 18 were cored.

The initial mine shaft will have a depth of about 2,700 feet and a diameter in the order of 20 feet. This is larger than initially planned and will enable the company later to supply ore adequate for an expanded plant. The company states that, by the end of 1963, capacity of the new plant may be raised to well over 1,500,000 tons of commercial output annually. The company believes that such expansion of capacity may well be warranted by the growth in demand for potash demand for potash.

Bureau of Mines figures indicate consumption of U.S. potash was six times as large in 1959 as in 1930. Quantity of potash in commercial product is measured in terms of potassium oxide content. commercial product is measured in terms of potassium oxide content. For example, the potassium oxide content in muriate of potash ranges from about 60% to about 63%. Over 90% of all potash is consumed in the muriate form. In 1949, consumption of U. S. potash was equivalent to less than 1.2 million tons of potassium oxide. Consumption doubled in the next 10 years and totalled about 2.4 million tons in 1959. Research studies indicate that consumption will double again by 1975.

Supply for the growing potash demand has taken great quantities of the richest of those reserves found at the traditional producing center in New Mexico, where over 90% of domestic potash has been produced. Data from the Bureau of Mines indicate that crude ore in New Mexico had potash (or potassium oxide) content averaging 25.21% in 1939 but only 18.58% in 1959. Where potash convent declines, more ore must be processed for any given amount of commercial product, resulting in higher cost production.

All company evaluations of the Utah properties have been confirmed by outside specialists employed to make independent appraisals, according to Dr. C. F. Fogarty, TGS Vice-President. The core analyses show that the Cane Creek deposit is very large and on the average has potash (or potassium oxide) content in excess of 25%. In addition, absence of clay eases desliming of the ore in the treatment process. Consequently, the latter is relatively simple and economical.

With the exericse of the option by TGS, Delhi-Taylor will retain a net profits interest in the potash properties, and will receive advance net profit payments of \$4,500,000 over a four-and-one-half year period. A first payment of \$500,000 has been received by Delhi-Taylor.—V. 192,

Texas Pacific Coal & Oil Co.—Net Up—

The company's earnings for the first three quarters of 1960 were \$5,758,759, an increase of more than 11% over the same period last year, Eugene T. Adair, President, has announced. Third quarter results were reviewed by the board of directors, showing gross income of \$6,445,352 and net earnings of \$1,791,131, equal to 46 cents per share. Earnings for the year to date are \$1.48 per share.

H. B. Fuqua, Board Chairman, said the board voted a regular third quarter dividend of 30 cents per share, payable Dec. 2 to shareholders of record Nov. 10.

Mr. Adair pointed out that the increase in earnings had been due to operating economies, and an aggressive drilling program which has kept gross income ahead of last year despite a drastic curtailment

kept gross income ahead of last year despite a drastic curtailment in allowable production days in Texas.

"There were 79 allowable producing days in the first nine months of this year, compared with 95 last year," he said. "We have accelerated our drilling activity by about 30% over last year. This year we have drilled 85 gross wells and participated in 25 others, making a total of 110 gross wells in which we have participated, compared with 86 in the same period last year."

Mr. Adair said that 18 of the wells drilled this year were wildcats, of which four made producing oil wells and three gas wells. He predicted that the company's activities in the last quarter of 1960 will sustain the improvement in earnings for the entire year over 1959.

Thew Shovel Co.—Sales, Net Up—

The Thew Shovel Company recorded net sales of \$19,619,000 in the nine months ended Sept. 30, 1960, as compared with \$17,089,000 in the same period in 1959, C. B. Smythe, President, announced on Nov. 9, 1960.

Net profits for the nine month period amounted to \$214,000, equa to 46 cents per share on 465,018 common shares outstanding. This compares with a net loss of \$93,000, equal to 20 cents per share, in the first nine months of last year, when results were affected by a nine week strike in the third quarter.—V. 191, p. 1479.

Trans World Airlines, Inc.—Net Down—

Trans World Airlines, Inc., earned \$6,083,000 or 91 cents a share in the first nine months of 1960 compared to a return of \$9,068,000 or \$1.36 a share at the three-quarter mark a year ago, it was announced on Nov. 10 by TWA board chairman Warren Lee Pierson. All except \$4,000 of this year's net was produced in the third quarter.

Total operating revenues for nine months were \$290,161,000, a 10% advance over the \$263,439,000 recorded last year. Greatest passenger revenue gains were in the area of coach travel, up from \$89,156,000 to \$101,221,000, and international economy, which increased from \$21,-935,000 to \$37,951,000. This situation reflected passenger appreciation for the greatest speed, comfort and reliability of coach travel on jet aircraft.

Jet aircraft.

The new 17-day European economy fares, providing jet around trips to Europe for as low as \$350, is expected to generate more of this popular form of air travel in the winter months.

During the first week of the 17-day excursion plan, which began Oct. 1, a total of 1,085 trans-Atlantic passengers, or an average of 15 per flight, availed themselves of this new, economical form of transportation.—V. 192, p. 349.

Trans-World Financial Co.-Net Soars-

Trans-World Financial Co. has revealed record earnings for the first nine months of this year. Louis J. Galen, President, reported the total for the three quarters ended Sept. 30 was \$1,069,005, equal to 80 cents a share on the 1,344,000 shares of common stock outstanding, which exceeds the 77 cents a share earned in the entire 12 months of 1959. The first five months of last year were on a pro forma basis.

pro forma basis.

Mr. Galen noted that his forecast made a mid-year that 1960 earnings would amount of 90 cents—\$1 now appears overly conservative. "Per share earnings could now well reach \$1.10," he stated. New highs were reached by the savings and loan holding company in savings volume, assets and real estate loans. Savings volume rose \$3,892,696 to \$76,847,473 as of Sept. 30 from \$72,954,777 at mid-year. Consolidated assets pushed upward to \$93,429,156 and compared with \$90,450,701 at the end of the second quarter. Real estate loans hit \$80,385,212 versus \$77,252,330 at the end of the preceding quarter. The three subsidiary associations of Trans-World Financial, head-quartered in Lynwood, Calif., Ontario, Calif. and Denver, Colo., were all successful in expanding their operations. The real estate market in both the Southern California and Denver areas remains good, Mr. Galen said. The associations experienced no substantial decline in demand for mortgage money. Current mortgage rates are at a profitable level. The outlook continues satisfactory, Mr. Galen added.—V. 191, p. 845. -V. 191, p. 845.

Ultra-Sonic Precision Co. Inc. - Common Stock Offered—Pursuant to a Nov. 3 offering circular, Merritt, Vickers, Inc., 125 Maiden Lane, New York 38, N. Y., publicly offered 100,000 shares of this firm's 10¢ par common stock at \$2 per share. An additional 25,000 shares will be offered by the underwriter from time to time at an aggregate price of not more than \$100,000.

BUSINESS—Ultra-Sonic Precision Co. Inc. is engaged in the business of manufacturing and selling precision carbon jigs used in the manufacture of transistors and transistor components. The company was incorporated in New York on Dec. 10, 1958. On Dec. 31, 1958, the company acquired the assets and business of a partnership known as "Ultra-Sonic Precision Co." The partnership had been engaged since January, 1957 in substantially the same business as that now

engaged in by the company. The office and plant of the company are located at 236 Fourth Avenue, Mt. Vernon, New York.

The precision jigs manufactured by the company are used in the manufacture of transistors to hold the glass and metal parts of transistors or transistor components in position while they are fused together in electric ovens. The company estimates that carbon jigs of the type made by it are used in the manufacture of more than 90% of the transistors produced in the United States. The jigs, which are required to be manufactured to a tolerance of one one-thousandth of an inch lose their accuracy after repeated use and must be replaced. of an inch, lose their accuracy after repeated use and must be replaced.

PROCEEDS—The net proceeds to be received by the company from the sale of the common stock are estimated at \$155,000, assuming all such stock is sold and after payment of the underwriter's commission of \$30,000 and expenses of \$10,000 and the expenses of the issue, which are estimated at \$5,000. According to the company's present plans, the first \$40,000 of such proceeds will be used to provide pilot production facilities for an automated precision hole layout system. production facilities for an automated precision hole layout system and for the purchase of additional machinery, equipment and inventory as production of this systetm is increased. An additional \$30,000 of such proceeds will be spent to organize franchised dealers to distribute and service this product and to defray sales promotion, advertising and other selling expenses in connection with its introduction to the market. to the market.

About \$40,000 of such proceeds will be added to the general funds of the company to increase its working capital. The company intends to use the remaining proceeds to pay its unsecured indebtedness to Franklin National Bank, which was outstanding in the amount of \$20,000 at June 30, 1960, and its indebtedness on certain secured obligations, which amounted to \$25,300.07 in the aggregate at June 30, 1960. This proposed utilization of proceeds may be changed in order and amount as the Board of Directors determines to be in the best interests of the company. interests of the company

United Air Lines, Inc.—Registers Debentures-

United Air Lines, of 5959 South Cicero Ave., Chicago, filed a registration statement with the SEC on Nov. 4, 1960, covering \$25,000,000 of subordinated debentures due 1985, to be offered for public sale through underwriters headed by Harriman Ripley & Co., Inc. The interest rate, public offering price and underwriting terms are to be supplied by amendment.

Net proceeds of the sale of the debentures will be used initially to reduce borrowings under United's bank credit agreement. It is an-

ticipated that United will continue to make borrowings under such agreement in connection with its program for the acquisition of additional jet powered aircraft and related flight and group equipment and for other purposes. A proposal for the merger of Capital Airlines, Inc., into United is pending before the Civil Aeronautics Board. Sale of the debentures is not conditioned upon consummation of the merger.—V. 192, p. 1243.

Shipment of the corporation and its domestic subsidiaries for the nine months ended Sept. 30, 1960, aggregated \$738,818,308 and compare with shipments of \$796,494,872 for the first nine months of 1959. Operations for the nine months, after Federal taxes, resulted in net income of \$10,864,815, equivalent to \$1.53 per share on the common stock after providing for dividends on the preference stock. In 1959, earnings for the first nine months amounted to \$23,151,648, equivalent to \$2.45 per share. lent to \$3.45 per share.

For the quarter ended Sept. 30, 1960, shipments totalled \$195,591,-014 and earnings amounted to \$824,056, or 7 cents per share on the common stock.

Operations for the quarter and the nine months were adversely affected by the strike and partial work stoppages which commenced early in June in most of the plants of all divisions except Norden. While these matters were settled before the end of the quarter essentially on the corporation's terms, the effect of the strike continued to the end of the period. Operations for these periods were also burdened by increased expenditures on forward development projects being carried without contractual support which amounted to over \$30 million for the nine months, up approximately \$11 million from the same period last year, and by increased interest and other costs and expenses.

Contracts, orders and government letters of intent at Sept. 30, 1960, amounted to approximately \$1,100,000,000 which compares with \$975,000,000 at June 30, 1960, and with \$1,075,000,000 a year ago.

United Components, Inc.—Earnings—

This Orange, N. J. manufacturer of component parts for the electronics industry, reports net sales of \$482,800 for the fiscal year ended Aug. 31, 1960, and net income of \$18,544, equivalent to six cents per share.

There are no direct comparisons for the preceding preiod because the company was incorporated Jan. 12, 1959. From that date to Aug. 31, 1959, however, net sales were \$65,307, and net income was \$400.-V. 191, p. 1053.

United Gas Corp.—Revenues Up, Net Down-

Consolidated operating revenues of this Shreveport, La., corporation and its subsidiaries for the first nine months of 1960 totaled \$290 million as compared with \$261.4 million for the same period in 1959, Ed Parkes, President, reported in the third quarter statement mailed

to shareholders on Nov. 8, 1960.

Revenues for the 12 months ended Sept. 30, 1960, amounted to \$383 million as compared with \$346.3 million for the 12 months ended

Sept. 30, 1959, the report stated.

Despite the increase in revenues, consolidated net income for the nine months of operations was \$20.2 million or \$1.57 per share, as compared with \$22.6 million or \$1.75 per share, for the same period

A change in the method of monthly Federal income tax accruals accounts for five cents of the difference in earnings per share during the nine months of 1960 as compared with the nine-month period in 1959, the report stated.

Natural gas revenue increases of \$19.8 million and sulphur, potash, and copper revenue increases of \$9.8 million were offset by other activities, principal among which were increased dy hole charges of \$1.3 million, decreased sales of one-half million dollars in condensate and gasoline, and inability to recover all increased costs from our customers. This inability to recover all increased costs from customers results in part from regulatory lag in obtaining rate increases from the Pederal Power Commission and other agencies and in part from sale of gas under contracts containing fixed rates, Mr. Parkes said.

During the first nine months of this year, United's wholly-owned productions subsidiary, Union Producing Co., drilled or participated in the drilling of 97 wells compared with 70 wells during the first nine months of 1959. Of these 97 wells, 39 were completed as oil wells, 37 as gas wells and 21 were dry holes. On Sept. 30, 1960, 16 wells were being drilled as compared with 12 wells being drilled on Sept. 30, 1959. Present plans contemplate the commencement of drilling operations on 15 more wells during the remainder of the year, Mr. Parkes said.

United Utilities, Inc.—Net Up-News-

Net income of United Utilities, Inc., the second largest independent telephone operating company in the nation, rose 25% during the first nine months to a new high and the final quarter should show a continuation of the same trend, C. A. Scupin, President, reported. In addition to record earnings, the utility system, which operates 24 companies serving more than 522,000 customers in 16 states, will establish new peaks in revenues, customer growth and capital expenditures, he added.

Operating revenues of the telephone powers and the state of the telephone powers.

ditures, he added.

Operating revenues of the telephone, power, gas, water and propane subsidiaries rose to \$34,861,700 for the nine months, compared with \$31,297,700 a year ago. Net income applicable to the common stock was \$4,396,900, equal to \$1.73 a common share compared with \$3,499,600, or \$1.53 a share, a year ago. The company had 2,540,468 average number of shares outstanding in the nine month period, compared with 2,290,547 average shares a year before.

While revenues and earnings expanded sharply, system growth and modernization also continued at a rapid pace, Mr. Scupin revealed. More than 20,000 customers have been added since the start of the year. Of the 522,150 customers, 486,000 were telephone subscribers.

Gross additions to fixed assets in the nine months totaled \$18,200,000, with a sizable part of the total spent for conversion of telephone exchanges to dial operation. The system's construction budget for 1960 is \$25 million.

The only financing contemplated by the parent concern this year is the private sale of \$5 million of 5¼%, 30-year bonds to 16 institutions, which was completed this month. Proceeds will be used to retire short-term bank debt incurred for construction and to add to working capital.—V. 192, p. 1039.

Universal Marion Corp.-Nine Month Net Rises-

Net income for the nine months ended Sept. 30, 1960, increased to \$4,055,121 from \$3,391,637 in the corresponding 1959 period, James

Mullaney, President, reported on Nov. 10.

Net earnings for the first nine months of this year were equal, after allowing for dividends on the preferred stock, to \$2.19 per share on the average number of common shares (1,788,118) outstanding during the period. This compared with \$1.95 per share on 1,740,477 common shares a year earlier, when there was no preferred stock outstanding. stock outstanding.

Sales for the nine months rose to \$41,180,912 from \$32,663,741 in the year-ago period.

Universal Marion made no provision in the latest period for Federal income taxes because of a tax loss carryforward.

For the three months ended Sept. 30, the company reported net

income of \$598,024, or 26 cents a share on the calculated 1.788,118 common shares, on sales of \$12,590,226. These figures compared with \$1,106,006, or 64 cents a common share, on sales of \$10,356,451 a

year before.

Included in the 1959 volume were initial deliveries of conversion ingots under a large order received by the Scullin Steel Division when the steel industry was on strike. This non-recurring business enabled the division to close out 1959 at close to peak production.

The backlog of unfilled orders as of Sept. 30, 1960, amounted to \$14,842,139 as against \$15,918,635 a year earlier, when the total included \$3,420,585 in conversion ingots.

In addition to Scullin Steel, the other divisions of Universal Marion are: Marion Power Shovel: Southern Pipe & Supply, and Tampa Hills.

Universal Oil Products Co.—Acquires—

Universal Oil Products Co.—Acquires—
David W. Harris, Board Chairman, has announced the purchase of Catalytic Combustion Corp., Detroit, for UOP stock valued at approximately \$500,000. Stock used for the transaction was previously purchased on the open market through cash generated by UOP operations, Mr. Harris pointed out.
Universal, with headquarters in Des Plaines, Ill., is a major petroleum and chemical research and process development company. Catalytic Combustion, with headquarters in Detroit, Mich., specializes in manufacture and sale of catalytic oxidation equipment for industrial heating applications and for elimination of industrial sources of air pollution. In addition to its Detroit headquarters, Catalytic maintains its manufacturing facilities in Bloomer, Wis., and operates Kavag, a German subsidiary located near Frankfort. Richard J. Ruff and Norbert C. Ruff will remain as President and Vice-President, respectively, of Catalytic Combustion.—V. 192, p. 748.

Univis, Inc.-New Name-Expansion-

A broad expansion program, involving far-reaching product diversification, new ultra-modern facilities, a plant move from Ohio to Florida, and a corporate name-change, has been announced by Univis,

Robert O. Barber. President, stated that The Univis Lens Co. was changing its name, effective at once, to reflect the company's expan-

sion program adding:

"A wide range of additions to our consumer and industrial product line is underway and planned, including hearing aids, eyeglass frames and related products; lenses to control glare, multi-focal lenses, plastic lenses for ophthalmic and industrial uses and plastic components for the Armed Forces.

the Armed Forces.

"Our carefully researched program of diversification to produce growth has motivated our decision to move to Vision Park, a newly created, 20-acre site at Ft. Lauderdale, Fla., adjacent to the Broward County airport. Marked expansion of scientific research and production to improve vision and hearing for all age groups, with quality aids at fair competitive prices permitting an adequate return on investment, should enable us, over the coming years, to greatly augment our personnell and substantially increase our present \$7,000,000 annual volume. We are cooperating with our industry on a wide program of education for better eye care to help improve vision in all age groups."

Utahcan, Inc.—Hearing Scheduled—

At the request of Utahcan, Inc., Spokane, Wash., the SEC has scheduled a hearing for Nov. 29, 1960, in the Federal Building in Spokane to determine whether to vacate or make permanent a prior order of the Commission temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public stock offering by Utahcan. In its temporary suspension order, the Commission asserted among other things that Utahcan's offering circular was false and misleading in respect of certain material facts.—V. 192, p. 1096.

Vim Laboratories Co., Inc. Rockville, Md.—Files With Securities and Exchange Commission—

Westates Petroleum Co.—Exploration Agreement—

The company has entered into an operating agreement with Standard Co. of Calif. and Richfield Oil Co. for the exploration of potential Oil Co. of Calif. and Richfield Oil Co. for the exploration of potential producing acreage in the San Emidio area of Kern County, Calif., it was announced on Nov. 9 by H. W. Thompson, Westates President. Westates is contributing 320 acres to a total of 1,760 acres covered by the operating agreement and will own approximately 9% of the working interest in the block, Mr. Thompson stated.

working interest in the block, Mr. Thompson stated.

Raichfield Oil Co., the operator, plans to start drilling a well within the next 30 days at a location in the NE½ of the NW¼, Sec. 5, T 11 N, R 21 W, SBB&M, he said. This location offsets Westate acreage and is approximately one mile north of existing Richfield production. The main objective will be the Stevens and Reef Ridge zones which are prolific in the area. Westates has additional land contiguous to, but outside of, the 1,760 acre block.

In 1958 Richfield drilled the discovery well in the San Emidio Nose Field. Since that date a total of 20 wells have been completed by Richfield and daily production averages approximately 6,400 barrels per day from both the Reef Ridge and Stevens zones.

In early 1959, Bandini Petroleum Co., and Hamilton Dome Oil Co., Ltd., predecessor companies subsequently consolidated into Westates, each owned an undivided 50% interest in the 320 acre lease and drilled a Reef Ridge test on the extreme southeastern portion of this acreage

Zero Manufacturing Co.—Net Down—

Sales in the six months ended Sept. 30, 1960 rose over the similar period of last year, President John B. Gilbert announced in a report to shareholders.

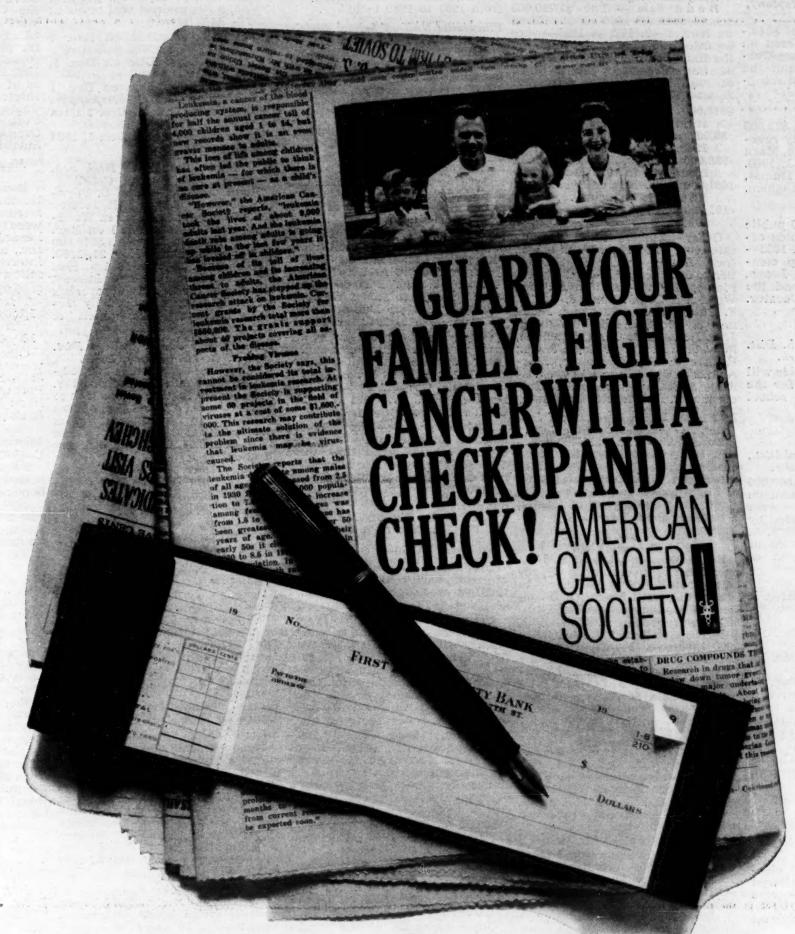

For the first half of its current fiscal year, Zero sales totaled \$2,-548,183, compared with sales of \$2,181,520 for the like period a year ago. "Despite the increase," said Mr. Gilbert, "sales were lower than anticipated and thus earnings were adversely affected since the company was geared to a higher rate of operations than was achieved."

pany was geared to a higher rate of operations than was achieved."

Earnings amounted to \$76,373, equal to 9 cents a share based on \$43,571 common shares, the average number outstanding during the period. In the comparable period last year, earnings were \$112,581, equal to 17 cents a share based on 667,890 common shares, the average number outstanding during that period.

The increase in the average number of shares outstanding between the two periods stems from the acquisitions made by the company and the sale of 125,000 common shares to the public in May, 1960.—V. 192, p. 1536.
